

Founded in India in 1995, Suzlon is today among the globally leading manufacturers of wind turbines. Our wind turbines stand for ecological energy generation and high economic efficiency.

Our corporate communication is open, transparent, respectful and characterised by trust and cooperativeness. Do you want to work flexibly and self-motivated and continue your personal development? If yes, Suzlon is the right employer for you!

Technical Product Manager (m/f/d)

Ref 510

As Technical Product Manager you will be accountable for the coordination of technical solutions on turbine level and focus on all project management activities within the Technology Group (TG). This includes all contributing technical functions and organizations on customer deliverables per product across the life cycle.

Your tasks:

- You will lead technical cross functional teams and be leader of the New Product Development (NPD) process
- It is your responsibility to manage and control technical targets and provide transparency on their adherence / achievements
- Budget planning and coordination of all work packages for TG are self-evident tasks since you will be accountable for schedules, technical risks, deliverables, costs and quality of the respective project.
- Furthermore you will have to manage resources of the cross-functional turbine development team and control the technical configurations according to the TG process.
- Being responsible for the above mentioned tasks you are certainly also the one to report the same to the top management.

Your Profile:

- For this assignment you have completed your university degree in Electrical or Mechanical Engineering.
- Preferably you have about 5 years of professional experience in leading cross functional and inter-cultural teams.
- Furthermore you should feel at ease and have significant professional experience in project management, portfolio management as well as configuration and risk management.
- Technical experience in the wind energy sector can be seen as a plus
- You prove analytical thinking and an ability to assert yourself, are working independently and goal-oriented.
- Experience and openness to an international working environment in multi-national teams would ease your daily work.

We offer demanding and interesting tasks in an innovative and dynamic surrounding with reasonable payment and flexible working times. If you are interested in the position please send your complete application package along with your salary expectations and earliest entry date quoting our reference number to: kristin.papenfuss@suzlon.com
